Vitamins to VEGA!

6th. May. 2024

VITAMIN

01

Before Labor Day holiday, the industry's overall trend is positive, VE, VA strong rise, niacinamide deal higher, B1 prices strong, other varieties of smooth running.

AMINO ACID

02

Amino acid market price stability last week, lysine market to ship mainly, the factory external offer firm, but the transaction is reduced compared with last week, 98% lysine export price between USD1.32-1.35/KG, 70% export price between USD0.67-0.70/KG, threonine overall market transaction is weak, the export price is around USD1.3/KG, end users are not strong willingness to sign orders, individual regional prices are low transaction, the follow-up attention to the factory and delivery progress. End-users are not strong willingness to sign orders, individual regional prices are low transaction, follow-up attention to the factory transaction and delivery progress.

API

03

The veterinary raw materials market maintains a stable operation, the overall demand is still general, the market maintains the purchase of just demand. Individual products by the supply, raw materials and other impacts of prices have been raised, mainly in the strong, neomycin sulfate, mucin sulfate and so on. The price of the rest of the varieties is running weakly and steadily, including florfenicol, oxytetracycline hydrochloride, tylenol tilmic acid etc.

FOOD ADDITIVE

04

Last week, the food additive plate overall stable operation, sweetener series products sucralose mainstream manufacturers prices stable to 113-115 RMB / KG, delivery normal, acesulfame / aspartame prices stable shipments; creatine monohydrate mainstream manufacturers normal shipments of some manufacturers scheduling to the second half of May, the current price of the big plants remain stable; preservatives products sodium benzoate / benzoic acid / potassium sorbate / sorbate prices remain stable, each manufacturer normal deliveries. Prices remain stable, the manufacturers normal delivery.
